Dear Sir:

This communication is in response to the Office Action mailed April 23, 2003 which has been made non-final.

IN THE CLAIMS

Please amend claim 9 as follows:

**RECEIVED**

JUL 24 2003

**GROUP 3600**

B1 9. (Currently Amended) In combination,

a door pivotally mounted in a door opening above a horizontal floor,  
the door mounted in the door opening for pivoting about a vertical axis between open and closed  
positions in the door opening, the door having an outer face and an opposed inner face,  
the door further having a lower edge proximate the floor, an elongate aperture in the floor  
adjacent to the door,

a security locking device comprising:

(a) elongate bolt secured to said door so as to be slidably mounted parallel to one of said  
faces, said bolt being extendable into a first engaged position wherein an end portion of  
the bolt extends outwardly of the lower edge of said door and into the elongate aperture in  
the floor; the bolt being substantially vertical relative the floor,
